Opera Corrects Minor XBRL Conversion Error in an Amendment to Its Annual Report

April 30, 2024

OSLO, Norway, April 30, 2024 /PRNewswire/ -- Opera Limited (NASDAQ: OPRA) ("Opera"), one of the world's major browser developers and a leading internet consumer brand, today announced that it has filed an amendment to its annual report on Form 20-F for the fiscal year ended December 31, 2023 with the U.S. Securities and Exchange Commission (the "SEC").

The amendment corrects a technical error in a table within note 11 to the financial statements, which originated in the XBRL conversion process. Specifically, in note 11, certain amounts included in a table were presented with four or five digits after the "," thousand separators due to integer duplication. This amendment does not affect any other parts of the original filing.

The annual report, including the amendment, can be accessed on Opera's investor relations website at https://investor.opera.com or the SEC's website at https://www.sec.gov. Opera will provide a hard copy of its annual report containing the audited consolidated financial statements, free of charge, to its shareholders and ADS holders upon requests directed to investor-relations@opera.com or:
