## Opera Reports Both Revenue and Adjusted EBITDA Above Guidance in its Third Quarter 2023 Results

11th consecutive quarter of 20+% revenue growth, exceeding the high end of previously issued guidance on both revenue and adjusted EBITDA

Delivered \$103 million quarterly revenue, with adjusted EBITDA margin of 23%

Raises both revenue and adjusted EBITDA guidance above the previous ranges

Returned \$53 million to its shareholders through dividend and share repurchases in the quarter

OSLO, Norway, October 26, 2023 /PRNewswire/ – Opera Limited (NASDAQ: OPRA), one of the world’s major browser developers and a leading internet consumer brand, announced its unaudited financial results for the quarter ended September 30, 2023.

(1) See "Non-IFRS Financial Measures" and "Reconciliations of Non-IFRS Financial Measures" sections below for explanations and reconciliations of non-IFRS financial measures.

(2) Opera Limited has American depository shares (ADSs) listed on the Nasdaq Global Select Market, each representing two ordinary shares in the company.

“With the best product portfolio in our company’s history, we were able to generate record revenue of \$102.6 million and adjusted EBITDA of \$23.8 million, both well ahead of the top end of our guidance ranges, and setting us up for a continued strong trajectory,” said co-CEO Lin Song.

“Our strong quarterly results are fueled by our operational execution. During the third quarter, Opera GX reached a new record of 26 million MAUs, our user base continued growing among high-ARPU users, and we kept expanding the number of people that have access to Aria, our browser AI. Across our products, we maintain a high pace of innovation to deliver the best possible browsing experience to our users,” continued Mr. Song.

### Third Quarter and Recent Business Highlights

- Advertising revenue grew 24% year-over-year, and now constitutes 59% of total revenue. This revenue category benefits from both our browser monetization trajectory as well as the expansion of our Opera Ads platform.
- Search revenue grew 15% year-over-year. The growth in search revenue continues to be driven by our focus on users with the highest monetization potential in Western markets.
- Opera had 311 million monthly active users (MAUs) in the third quarter of 2023, with user growth in North America and Europe being offset by reductions in low-ARPU user numbers in emerging markets.
- In the third quarter of 2023, annualized ARPU was \$1.31, an increase of 24% versus the third quarter of 2022.
- The Opera GX gaming browser had 26.1 million MAUs across PC and mobile in the quarter, up 10% from 23.7 million in the second quarter.
- Paid our first recurring semi-annual dividend of \$0.40 per ADS in July, and repurchased 1.2 million ADS at a cost of \$17.2 million during the third quarter.

## **Business Outlook**

“We are excited about the momentum in our business, and how our strategy enables the combination of both revenue scaling and healthy profitability that directly benefits our shareholders through a recurring dividend program and share repurchases. Our year-over-year growth rates were strongest at the end of the quarter, translating to a solidified trajectory as we look to the fourth quarter and a significant upwards revision of our guidance for the year,” said Frode Jacobsen, CFO.

For the full year of 2023, Opera is raising its revenue guidance to be \$394 - 397 million, up from the previously issued \$380 - 390 million. We guide adjusted EBITDA to be \$88 - 90 million, or a 23% margin at the midpoints, up from \$80 - 84 million.

For the fourth quarter, we guide revenue of \$110 - 113 million or 16% year-over-year growth at the midpoint, up from \$102 - 109 million implied in our prior guidance. Adjusted EBITDA is guided to be \$22 - 24 million, or a 21% margin at the midpoint, up from \$19.3 - 21.3 implied in our prior guidance.

## **Third Quarter 2023 Financial Results**

All comparisons in this section are relative to the third quarter of 2022 unless otherwise stated.

**Revenue** increased by 20% to \$102.6 million.

- Advertising revenue increased by 24% to \$60.8 million.
- Search revenue increased by 15% to \$40.8 million.
- Technology licensing and other revenue was \$1.0 million.

**Operating expenses** increased by 25% to \$86.6 million.

- Combined technology and platform fees, content cost and cost of inventory sold were \$25.2 million, or 25% of revenue.
- Personnel expenses, including share-based remuneration, were \$20.7 million. This expense consists of cash-based compensation expense of \$17.5 million, an 8% increase year-over-year, and share-based remuneration expense of \$3.2 million. Share-based remuneration includes grants made by Opera’s majority shareholder, which represents an expense in the P&L even though Opera has no obligation in connection with these grants, and they do not represent dilution for Opera’s shareholders.
- Marketing and distribution expenses were \$28.4 million, an increase of 9%.
- Depreciation and amortization expenses were \$3.2 million, a 7% decrease.
- The quarter included impairment expense of \$0.6 million related to a non-core intangible asset, and non-recurring expenses of \$0.7 million related to the filing of an F-3 registration statement and the secondary offering conducted in September.
- Other operating expenses were \$7.7 million, a 28% increase which includes elevated professional services fees in connection with Opera’s strengthening of its framework for internal controls over financial reporting.

**Operating profit** was \$16.1 million, representing a 16% margin, compared to an operating profit of \$16.2 million in the third quarter of 2022.

**Net finance income** was \$1.0 million, inclusive of interest income on bank deposits and time-value changes of our Star X receivable, compared to a net finance expense of \$1.6 million in the third quarter of 2022.

**Income tax expense** was \$0.2 million, compared to \$5.2 million in the third quarter of 2022, benefiting from the recognition of a deferred tax asset relating to prior share based remuneration expenses, which reduces future tax payments.

**Net income** was \$16.8 million, representing a 16% margin, compared to net income of \$9.4 million in the third quarter of 2022.

**Basic earnings per ADS** was \$0.19 in the third quarter of 2023, compared to basic earnings per ADS of \$0.08 in the third quarter of 2022. In the third quarter of 2023, the weighted average number of ordinary shares outstanding was 179.3 million, corresponding to 89.65 million ADSs.

**Adjusted EBITDA** was \$23.8 million, representing a 23% margin, compared to adjusted EBITDA of \$21.4 million in the third quarter of 2022.

**Free cash flow from operations** was \$13.4 million, compared to \$15.0 million in the third quarter of 2022. The revenue strength within the quarter, combined with a relatively stable level of marketing spend, translated to a \$6.7 million working capital increase within the quarter. Year-to-date, free cash flow from operations totaled \$50.0 million, compared to \$22.6 million in the first three quarters of 2022.

## **Non-IFRS Financial Measures**

We collect and analyze operating and financial data to evaluate the health of our business and assess our performance. In addition to revenue, net income (loss), net cash flow from operating activities and other financial measures under IFRS, we use adjusted EBITDA and, starting from 2023, free cash flow from operations, which are described below, to evaluate our business. We use these non-IFRS financial measures for financial and operational decision-making and as means to evaluate period-to-period comparisons. While these non-IFRS financial measures should not be considered substitutes for, or superior to, the financial information prepared and presented in accordance with IFRS, we believe that adjusted EBITDA provides meaningful supplemental information regarding our performance by excluding certain items that may not be indicative of recurring core business operating results, and that free cash flow from operations provides useful information regarding how cash provided by operating activities compares to the investments required to maintain and grow our business.

We believe these non-IFRS financial measures are useful to investors both because (1) they allow for greater transparency with respect to key metrics used by management in its financial and operational decision-making and (2) they are used by our institutional investors and the analyst community to help them analyze the health of our business. Accordingly, we believe that these non-IFRS financial measures provide useful information to investors and others in understanding and evaluating our operating results and liquidity in the same manner as our management team and Board of Directors. Our calculation of these non-IFRS financial measures may differ from similarly-titled non-IFRS measures, if any, reported by our peers. In addition, our non-IFRS financial measures may be limited in their usefulness because they do not present the full economic effect of expenses and cash flows mentioned below. We compensate for these limitations by providing a reconciliation of our non-IFRS financial measures to the most closely related IFRS financial measures. We encourage investors and others to review our financial information in its entirety, not to rely on any single financial measure and to view adjusted EBITDA and free cash flow from operations in conjunction with net income (loss) and net cash flow from operating activities.

We define adjusted EBITDA as net income (loss) excluding (i) profit (loss) from discontinued operations, (ii) income tax (expense) benefit, (iii) net finance income (expense), (iv) share of net income (loss) of equity-accounted investees, (v) impairment of equity-accounted investees, (vi) fair value gain (loss) on investments, (vii) depreciation and amortization, (viii) impairment of non-financial assets, (ix) share-based remuneration, including related social security costs, (x) non-recurring expenses, and (xi) other operating income.

We define free cash flow from operations as net cash flows from (used in) operating activities less (i) purchases of fixed and intangible assets, (ii) development expenditure and (iii) payment of lease liabilities.
