

INVESTOR PRESENTATION

Q1 2026

SAFE HARBOR STATEMENT & DISCLAIMERS

This presentation has been prepared by Opera Limited (the “Company”) for investors, solely for informational purposes.

This presentation contains “forward-looking” statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and as defined in the Private Securities Litigation Reform Act of 1995. These forward-looking statements include but are not limited to our management quotes and our financial outlook for the second quarter of 2026 and for fiscal year 2026.

Our forward-looking statements are not historical facts but instead represent only our belief regarding expected results and events, many of which, by their nature, are inherently uncertain and outside of our control. Our actual results and other circumstances may differ, possibly materially, from the anticipated results and events indicated in these forward-looking statements. Announced results for the first quarter of 2026 are preliminary, unaudited and subject to audit adjustment. In addition, we may not meet our financial outlook for the second quarter of 2026 and for fiscal year 2026 and may be unable to grow our business in the manner planned. We may also modify our strategy for growth. In addition, there are other risks and uncertainties that could cause our actual results to differ from what we currently anticipate, including those relating to our goals and strategies; our expected development and launch, and market acceptance, of our products and services; our expectations regarding demand for and market acceptance of our brand, platforms and services; our expectations regarding growth in our user base and level of engagement; our ability to attract, retain and monetize users; our ability to continue to develop new technologies and/or upgrade our existing technologies; quarterly variations in our operating results caused by factors beyond our control; and global macroeconomic conditions and their potential impact in the markets in which we have businesses. For additional information on these and other important factors that could adversely affect our business, financial condition, results of operations, and prospects, please see our filings with the U.S. Securities and Exchange Commission.

All information provided in this presentation is as of the date of the presentation. We undertake no obligation to update any forward-looking statement, whether as a result of new information, future events or otherwise, after the date of this release, except as required by law.

Certain of the information included herein was obtained from various sources, including third parties, and has not been independently verified by the Company.

In addition to the IFRS financials, this presentation may include certain non-IFRS financial measures. These non-IFRS financial measures, which may differ from similarly titled measures used by other companies, are presented to enhance investors’ overall understanding of our financial performance and should not be considered a substitute for, or superior to, the financial information prepared and presented in accordance with IFRS.

OPERA NEON

A product that lets one person work with the confidence of a real organization.

Not an AI assistant, not a freelancer tool, not productivity software. A browser which becomes your workspace.

You don't need a company to operate at a high level. You are the company.

Whether you're running a team of ten or a company of one. You need a workspace that moves seamlessly between all the roles you play.

Definitions

Monthly Active Users (MAU)

“MAUs” or “monthly active users” refers to the average number of active users of any month (within a given period), calculated as of its final day using a 30-day lookback window.

“active user” refers to a user, calculated based on device identification, that has accessed one of our mobile browsers, PC browsers or other applications (including white-label versions thereof) at least once during a given period. A unique user that is active in more than one of the applications on our platform is counted as more than one active user.

“western markets MAUs” refers to MAUs in North America, Europe (excluding CIS), Israel and Turkey, and represents rounded figures.

ARPU

“ARPU” refers to the annualized sum of quarterly query and advertising revenue, per average quarterly MAU.
