Investor presentation

October 2022
Safe harbor statement & disclaimers

This presentation has been prepared by Opera Limited (the “Company”) for investors, solely for informational purposes.

This presentation contains “forward-looking” statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and as defined in the Private Securities Litigation Reform Act of 1995. These forward-looking statements include but are not limited to our management quotes and our financial outlook for the fourth quarter of 2022.

Our forward-looking statements are not historical facts but instead represent only our belief regarding expected results and events, many of which, by their nature, are inherently uncertain and outside of our control. Our actual results and other circumstances may differ, possibly materially, from the anticipated results and events indicated in these forward-looking statements. Announced results for the third quarter of 2022 are preliminary, unaudited and subject to audit adjustment. In addition, we may not meet our financial outlook for the fourth quarter of 2022 and may be unable to grow our business in the manner planned. We may also modify our strategy for growth. In addition, there are other risks and uncertainties that could cause our actual results to differ from what we currently anticipate, including those relating to our goals and strategies; our expected development and launch, and market acceptance, of our products and services; our expectations regarding demand for and market acceptance of our brand, platforms and services; our expectations regarding growth in our user base and level of engagement; our ability to attract, retain and monetize users; our ability to continue to develop new technologies and/or upgrade our existing technologies; quarterly variations in our operating results caused by factors beyond our control; and global macroeconomic conditions and their potential impact in the markets in which we have businesses. For additional information on these and other important factors that could adversely affect our business, financial condition, results of operations, and prospects, please see our filings with the U.S. Securities and Exchange Commission.

All information provided in this presentation is as of the date of the presentation. We undertake no obligation to update any forward-looking statement, whether as a result of new information, future events or otherwise, after the date of this release, except as required by law.

Certain of the information included herein was obtained from various sources, including third parties, and has not been independently verified by the Company.

In addition to the IFRS financials, this presentation may include certain non-IFRS financial measures. These non-IFRS financial measures, which may differ from similarly titled measures used by other companies, are presented to enhance investors’ overall understanding of our financial performance and should not be considered a substitute for, or superior to, the financial information prepared and presented in accordance with IFRS.
The way we use the internet is changing

The internet is being accessed and used every day by billions of people who want a unique and personalized online experience.

This will require new and better ways to digitally identify, communicate, create, share, and transact with each other.
Browser First

Personalized experience
Default browsers are already designed to a standardized experience, failing to offer consumers the functionality they want and need to fully manage their online lives in a personalized manner.

Gateway vs. Foundation
Default browser limitations will only be amplified as Web3 makes it clear that the browser is not just a gateway, but the foundation for the entire online experience – from start to finish.

Peoples choice
Opera has already reached mass scale because people deliberately choose to use it. Our success demonstrates the power of our products, and the confidence consumers have in the Opera brand.

Opera’s users are everywhere, on every device

Established browser business with a massive and engaged audience

Expansion
We’re expanding into new markets with a set of products increasingly desired by high-value consumers in multiple geographies, driving a shift in our user base that we believe will continue for years to come.

Mission
We continue to provide the best internet experience for users in developing economies, where we remain a dominant internet brand.

Monetization and Results
Strong Multi-Year Revenue Growth

Opera has consistently grown revenues in both search and advertising, and we expect 2022 to be our best year ever

Revenue

- Growth fueled by strategic choice to tailor make products for western and high-value users
- Accelerating as Opera core business increases growth and as new initiatives come online
- Expecting ~29% YoY growth at midpoint of 2022 revenue guidance
Accompanied by EBITDA margins set to expand

Profitable growth has allowed us to invest in scaling our business, with ongoing margin expansion as we scale

EBITDA

- Core business has strong Adjusted EBITDA margins
  - Adjusted EBITDA margin guidance in 2022 is ~ 19%
- Strategic decision to invest heavily in western markets and scale in 2021 impacted margins
  - Margins troughed in 2021 at 11%
  - The midpoint of guidance implies EBITDA growth of 125%

Three Key Value Drivers in Place

1. Opera’s DNA is in developing highly personalized browsers for specific use cases - Opera GX and the Web3 Browser for example.

2. Proven at-scale growth and profitability with efficient underlying cost structure.

3. Strong position to benefit from long-term secular trend toward browsers of choice in a browser-first world.
